Hi Tom – ps, re below – I'd like to check the Congressman's availability for a public press event to kickoff this project, on either the morning of Tuesday, July 9 or Thursday, July 11.

Thanks!

Subject: June 5 Public Information Session regarding the upcoming Passaic River dredging project adjacent to Lyndhurst

When: Wednesday, June 5th, 7-9 pm.

Where: Lyndhurst Senior Center, 250 Cleveland Avenue, Lyndhurst, NJ

What: A public information session consisting of a presentation and Q&A followed by an opportunity to meet one-on-one with representatives of the EPA, Cooperating Parties Group (CPG) and other government agencies.

Why: Starting in late Spring 2013, a cleanup project will begin in an area of the Passaic River adjacent to Riverside County Park North and Thomas F. Gallagher Memorial Recreation Area. This work is being done by the Lower Passaic River Study Area CPG with oversight by EPA. The work will include removal of approximately 20,000 cubic yards of contaminated sediment from the River bottom over a period of about eight weeks. Work is expected to take place 12 hours a day for six days a week. After dredging work is completed, a cap will be installed in the dredged areas. Both dredging and capping work is expected to be completed by this Fall.
