Hi Wanda,

That statement is accurate. The bridges will be opened once when the large dredging equipment travels up to RM 10.9 at start of work and they will be opened again when project is completed. The "daily transport" of the removed sediment will be moved down to the Bay by smaller equipment and the bridges will not have to be opened daily as a result.

On the fact sheet under transportation of material, there is a statement that says "This daily transport will not require opening of any bridges crossing the river" can you verify that for accuracy and I will then proceed to make the edits to the fact sheet provided by Stephanie and will forward to you. Will let you know about the locale and date under a separate email.

Wanda,

Sorry for just getting back to you. Was out of the office this afternoon. That's the most up to date version of the fact sheet. We've separately sent out the attached document to stakeholders. This notice was sent to adjacent property owners, boat clubs and crew teams, but not to the 600 residents on the mailing list who live around the park in Lyndhurst and on River Road in Nutley. Let me know what changes you'd like to make to the fact sheet. It will likely take a 2-3 days to have the CPG review it, but I'll work to move it through the review process quickly.

Any word on availability of the Senior Center on 22nd or 29th?

I would be happy to talk anytime tomorrow about the fact sheet. I'm free up until 4 p.m. on my cell phone.

Thanks very much.

Hey Tony:

Is there a more current version of this fact sheet? I met with Stephanie Vaughn this morning and she seems to think this version is an outdated one because it does not reflect actions that have taken place since the last discussion/meeting and does not reflect other steps that have since happened (opening of bridges crossing the river). I'm just trying to facilitate not having to duplicate work that has already taken place, so can you verify that there is not another version. If we have to rework the fact sheet (lots of changes), it will most likely delay the date of the meeting, if changes need to be approved by the PRP group. Let me know before I proceed.

I will make the changes to the letter and forward to you separately.

Thanks David. Tomorrow at 11:30 a.m. would work for me. I'll give you a call then.

Look forward to working with you Wanda.

Tony, let's talk tomorrow. I am available from 11:30 to 1:00 or at 4:00. I am copying Wanda Ayala, a community involvement coordinator that I am asking to assist in our outreach efforts. Tomorrow I expect to hear back from Mayor Giangeruso's office as to whether the senior center is available for the 22nd of May, with alternate date of 29th of May.

My apologoes for not getting in touch with you earlier in the week. I need to re-group on the May 22 mtg date. Ray Basso may have a conflict. I need to discuss with the team on Monday. Let's talk in the PM of Monday. Thanks for the mailing list.

David,

Per our previous discussion, attached is a proposed mailing list for individuals and groups that would receive the May 8th cover letter/public availability session invite and fact sheet.

This list includes the following groups:

- Boating and Yacht clubs
- Non-profit organizations (CAG and PRC)
- High school/college crew teams
- Property owners (Adjacent property owners, Lyndhurst residents who live within 3 blocks and in the viewshed of the Riverside County Park and residents who live in the viewshed of the park across the River in Nutley)

Please let me know if you have any questions. Thank you.

David,

Attached is the revised RM 10.9 communications plan with your suggested edits/additions included. Please note that I added three yacht clubs to the stakeholder list to reflect your comment about adding mariners clubs that use the River.

Please let me know if you have any further edits. Thank you.

David,

Just wanted to let you know that we're finalizing the suggested River Mile 10.9 communications plan and we will get it to you Monday or Tuesday of next week.
