To: Ayala, Wanda
Subject: RE: River Mile 10.9 mailing list

Hi Wanda,

Bridges will need to be opened daily. This was a change from a much earlier version of the design. Here's the relevant text from the final design report:

Several of the bridges will need to be opened to support mobilization and demobilization of equipment. Bridge

openings will also be required to support the transport of dredged materials and capping materials to and from

the Removal Area. It is anticipated that five bridges will require opening to support the transport of materials to

and from the project site: the DeJessa Park Avenue Bridge (RM 10.37), Rutgers (Route 7) Bridge (RM 8.53), Clay

Street Bridge (RM 5.83), Bridge Street Bridge (RM 5.41), and the Penn RR at Center Street Bridge (RM 4.75). In

order to minimize the disruption of surface traffic, these openings will be coordinated to occur at night.

Hope this helps clarify the issues.

Thanks,

Stephanie

Hi Wanda,

Under ***Transportation of Material, it says bridges will need to be opened. Should it say "not" need to be opened."***

Sediment will be transported daily down the River on small barges. Bridges will need to be opened.

Subject: RE: River Mile 10.9 mailing list

Hi Wanda,

That statement is accurate. The bridges will be opened once when the large dredging equipment travels up to RM 10.9 at start of work and they will be opened again when project is completed. The "daily transport" of the removed sediment will be moved down to the Bay by smaller equipment and the bridges will not have to be opened daily as a result.

Tony Bianchini

Subject: RE: River Mile 10.9 mailing list

On the fact sheet under transportation of material, there is a statement that says "This daily transport will not require opening of any bridges crossing the river" can you verify that for accuracy and I will then proceed to make the edits to the fact sheet provided by Stephanie and will forward to you. Will let you know about the locale and date under a separate email.

To: Ayala, Wanda; Kluesner, Dave
Subject: RE: River Mile 10.9 mailing list

Wanda,

Sorry for just getting back to you. Was out of the office this afternoon. That's the most up to date version of the fact sheet. We've separately sent out the attached document to stakeholders. This notice was sent to adjacent property owners, boat clubs and crew teams, but not to the 600 residents on the mailing list who live around the park in Lyndhurst and on River Road in Nutley. Let me know what changes you'd like to make to the fact sheet. It will likely take a 2-3 days to have the CPG review it, but I'll work to move it through the review process quickly.

Any word on availability of the Senior Center on 22nd or 29th?

I would be happy to talk anytime tomorrow about the fact sheet. I'm free up until 4 p.m. on my cell phone.

Thanks very much.

Subject: RE: River Mile 10.9 mailing list

Hey Tony:

Is there a more current version of this fact sheet? I met with Stephanie Vaughn this morning and she seems to think this version is an outdated one because it does not reflect actions that have taken place since the last discussion/meeting and does not reflect other steps that have since happened (opening of bridges crossing the river). I'm just trying to facilitate not having to duplicate work that has already taken place, so can you verify that there is not another version. If we have to rework the fact sheet (lots of changes), it will most likely delay the date of the meeting, if changes need to be approved by the PRP group. Let me know before I proceed.

I will make the changes to the letter and forward to you separately.

Subject: River Mile 10.9 mailing list

David,

Per our previous discussion, attached is a proposed mailing list for individuals and groups that would receive the May 8th cover letter/public availability session invite and fact sheet.

This list includes the following groups:

- Boating and Yacht clubs

- Non-profit organizations (CAG and PRC)

- High school/college crew teams

- Property owners (Adjacent property owners, Lyndhurst residents who live within 3 blocks and in the viewshed of the Riverside County Park and residents who live in the viewshed of the park across the River in Nutley)

Please let me know if you have any questions. Thank you.
