Subject: RE: Question about Swinomish subaward

Thank you, Rachel. I am guessing, based on Dietrich's prior exchanges with Larry to get copies of invoices for other costs, that it would be necessary to call Larry directly. Thank you very much for looking into this.

Hi Lisa-

I'll peel through Tiffany's old correspondence and documents to see if I can shine any light on this question. If nothing's there, then I'll reach out to Larry to see if he has any idea.

If they were stock, would you be able to confirm that they were not charged to the subaward? And if they were not stock but rather created as part of the project, would you be able to tell us if they were charged to the subaward?

> We are asking these questions because they relate to the question Tom raised with me by phone last week on 4/28. As a quick recap for Rachel, in that conversation, Tom indicated that the Swinomish tribe said to NWIFC that they would like to use their own funding to continue the billboard campaign as soon as this week and wanted to know whether the EPA logo had to be displayed.
