05	IL	IL1330200	MAEYSTOWN	0	Y	CWS	157	viols		186	170	On Path	N	L	0	0	Current Score 0			The Illinois Attorney General's Office indicates that Maeystown signed a contract June 6, 2016 to purchase water from Fountain Water District. The final completion date for the project is September 1, 2017. The Illinois EPA will assist the AG in tracking interim milestones in the order and early indications are that the project will be completed ahead of the final completion date.	The Illinois Attorney General's Office indicates that Maeystown signed a contract June 6, 2016 to purchase water from Fountain Water District. The completion date for the project is February 2017.	The Illinois Attorney General's Office indicates that Maeystown signed a contract June 6, 2016 to purchase water from Fountain Water District. The completion date for the project is February 2017.	The Illinois Attorney General's Office indicates that Maeystown signed a contract June 6, 2016 to purchase water from Fountain Water District. The completion date for the project is February 2017.	Febuary 2016 will propose to connect to Fountain Water District	The IL EPA and the IAGO conducted a status meeting with Maeystown. The IAGO directed Maeystown to move forward with connection to Fountain MCL. Maeystown has indicated that installation of R.O. may no longer be the preferred option and interconnection with a nearby CWS may be more viable. The IAGO will be requiring action within the next few months or will be seeking a court order instead of an agreed to	Maeystown has agreed to install an R.O. system thru formal enforcement by the IL AGO. At this time, an NPDES permit is needed to be issued for the discharge from the unit. On the grant front, apparently the CWS lost one of the smaller grants it was going to get and its larger DCEO grant is held up in the budget impasse. The IL EPA is going to ask the AGO to ask Maeystown for a status on the permit application for the NPDES.	Region 5 requests that Illinois EPA refer this system for formal enforcement action.	Status unchanged since October "14 Report.	Status unchanged since July "14 Report.	Their proposed plan is to proceed with the SO system, and Water Pollution is reviewing their NPDES permit application. We are confident they are discussing a positive treatment process with U of I that would enable them to reduce the level of nitrate in their discharge because of the lack of flow in the stream.	Maeystown has signed a consent order requiring the installation of reverse osmosis treatment. Construction of the system is to be completed by June 1, 2015, and be complete and operating by September 1, 2016. I will put the order in sign-off today.
