
Legend

- Soil Boring Location with PID Screening Results Less than 100 PPM
- Soil Boring Location with PID Screening Results Greater than 100 PPM

CRITERIA

- <100
- 500
- 1000
- 5000
- >5000

Notes

1. Cores were screened at 6-inch intervals as indicated on the stacker bars. Intervals without a numeric value indicate no change in PID screening results. The PID screening result for the unmarked inteval is contained in the bottom-most box for that interval.
2. All PID screening results are in PPM.
