Subject: Update on data gathering

Hi Fran,

I think I have a handle on sources of river data. So while I accompany START for sampling, Raj will follow up with those contacts. So our update will be later today because site work really isn't changing much, if that is okay with you.

Thanks,
Melissa

Subject: Update on amount of PPH in the MCHM spill

Hi Fran,

The Freedom Industries President just told Mike Dorsey that there is 7.3% PPH instead of the reported 5.6% given yesterday.

So the contents of tank 396 is 88.5% crude MCHM, 7.3% PPH, and 4.2% water (percent by weight, not volume as previously stated) reported as a requirement of the WV DEP Order issued this morning to the facility.

Thanks,

Melissa
