Cindy. Take your time. I don't think its essential tonight. I was on the conference call with Lora until right after Peggy finished her initial discussion. **Ex. 6 - Personal Privacy**

Yikes...

Cindy, let me know if I should intervene here. Maybe Raj is stepping out a bit too far??
I know him pretty well.....

I'm sorry Raj.

That is the only number I was given for Lt. Col Grant via OSC Matlock/WV DEP Dorsey - can you email Lt. Col Grant and give him your phone number instead for him to call you?? thank you for trying!!!

Hi there Cindy

See below for the email for the WV contact re EPA assistance with the detection limit for PPH.

Also, Lt. Col Grant's phone number is 304-654-7696.

Will someone with laboratory expertise at EPA be able to reach out to him today?

Thank you!! Lora

Subject: EPA water contact info

Gregory.L.Grant.mil@mail.mil

Lora, Chris:

Lt. Col. Gregory Grant is the person coordinating the sampling and analysis of the water system in WVA. Would you please pass along his email contact info to the appropriate folks at EPA laboratories? The State is requesting assistance and hoping someone will contact today.

Thanks!

Vik

Subject: ATSDR/CDC items mentioned this am re Freedom WV; NTP contact for OSHA, EPA coordination on raw material analyses, and request for EPA lab expertise to assist WV on PPH analysis/detection limit

Hi there

As I mentioned, here is follow up from the items I brought up during this morning's briefing:

1. Here is the NTP/NIEHS director contact for OSHA and EPA lab coordination on raw material analyses: Dr. John Bucher, 919 541 4532

2. In discussions with Senator Manchin last night, CDC committed to trying to facilitate communications btwn laboratory experts at EPA (R3? ORD? Denver?) and WV to try to improve if possible the state's detection limit for PPH as soon as possible. Cindy, thank you for carrying this conversation forward on the EPA R3 side. Please let me know if I can help in any way. CDC has reached out to Dow and they have committed to providing any additonal info they have available on the tox side (not sure if that also includes analytical side). I will share anything I get in that regard. Could you let me know if EPA can help the state in this regard?

Best Lora

Subject: FW: MSDS for PPH/DiPPH Material sent to Freedom

All:

See Lora's email and attached.....

I had to get off yesterday's call early. I guess we have a 9 am call today.... I just got buzzed on my Blackberry.

Jack, could you share with the full 9 am group?

Are we talking today? I have a request to pass along from my HQ/the state related to analytical for PPH.

This apparently is the corrected MSDS for the other material.

Lora
