DRAFT

work w/ NACWA + ACWA + WERF research products

Indust POTW

(a) DSP.

(b) lower #'s Do mussels come back

(c) decision tree.

(d) permitting framework.

Lagoons - R7

→ VARIANCES / Mixing Zones.

MIKETATE (KS) - no m2 for KANSAS - big reaction.

EPA HQ talk to R7.

Trish talked to R7 - Ann Levity + Glenn Curtis. Knew nothing on restricting Mixing Zones (except & over mussel bed)

DRAFT

LARY: (1) Duration issue came up:

(2) Daily vs. max daily + monthly not came up.

Phil 2 surprised ~~not~~ that it didn't come up. → 3-4 mg/l can't meet for max daily

(3) temperature - hard to meet in ~~win~~ WINTER.

(4) Δ TSD →

Fred Andes - delaying permit issuance - wait a year to adopt a criteria.

LARY - Said ~~their~~ there are some states that haven't adopted 1999 criteria yet. EPA OST could overpromulgate but rarely do overpromulgate.
