Forwarded from our RRT members at FEMA

This is a rare Stafford Act Presidential emergency declaration for a chemical spill. Please share with the RRT if you feel it is appropriate.

CNN article: http://www.cnn.com/2014/01/09/us/west-virginia-contaminated-water/. Another article I saw said 300,000 people were affected.

President Obama Signs West Virginia Emergency Declaration

01/10/2014 07:45 AM EST

WASHINGTON, D.C. -- The U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) announced that federal emergency aid has been made available to the State of West Virginia to supplement state and local response efforts due to the emergency conditions resulting from a chemical spill on January 9, 2014, and continuing.
