Subject: RE: WV Spill and Coal Washing Briefing

Hello Again –

I should have included a time line in my email this morning. Please try to get me a draft of your additions to the AECAB briefing by the end of the day tomorrow. That should give me enough time to work all the changes into one document and streamline everything.

I would also like to plan another meeting of our large group for Monday. You will get an invite shortly. I will plan to have some draft briefing document(s) & images sent out to y'all before then. Let me know if you have anything you think I should include.

Finally, I will schedule a meeting of the briefing team for Wednesday morning (8:30am), in advance of the actual briefing. We have been asked to keep that down to 8 people (2 from each division). I have the nominees from Air, SFD, and ORC, but need the list for Water.

Thanks!

Eleanor

Subject: RE: WV Spill and Coal Washing Briefing

Hi All –

Attached are a number of documents we discussed yesterday:

- The Air Enforcement draft briefing
- The Superfund draft briefing
- The HQ Memo of information collected for the press
- The Region 3 Pollution Report

As we discussed, I think it makes the most sense for Water & Superfund to add their bullet points to the Air memo. I will then trim down the background sections.

We'll also need to work on providing all the visuals to her. Some pictures I collected are at the end of the Air memo, and I am trying to put together a flowchart of the coal washing process. I think a map of the relevant facilities in R5 would be great to add.

Thanks!

Eleanor

Subject: WV Spill and Coal Washing Briefing

I spoke with George. He said to include both the tank farms and the coal washing in the briefing. I requested that the briefing be rescheduled for next week. We should meet again once we have the briefing paper revised. Once we have a date scheduled, I will schedule a pre-briefing.

Thanks!
