NARRATIVE DESCRIPTION

Terminix Test started Leaking at house next door (6'-9' away) into my enclosed patio. Then into sewer line into my UNUSED plumbing of unused Bathroom where ODOR so strong, it "burned" so sealed off room for some ten plus days after the initial 2 day Testing work. The Odor remained in Patio area for same ten plus days after Removal of Tent.

On day one, I was overcome by the Vitaine to point of calling '911'. Responders Knew Nothing about effects of exposure. My Memory & Speech were affected when they arrived. Next day, much worse, with left hand contracting and swelling causing severe pain.

One year later, I'm in Speech Therapy & Physical Therapy still suffering the ill effects. No doctor interested in helping during first year.
