Re: Notification of Removal of Land from GDE Investments LA., LLC. Mitigation Bank Pursuant to Section XII, Paragraph 2 of the Mitigation Banking Instrument

Dear Ms. Jacqueline,

As you are aware, the GDE Investments Mitigation Bank includes 457 acres of former farm land, including a considerable area not considered mitigation and an area of uplands. Only 367 acres is considered as mitigation. Thus, pursuant to Section XII, Addenda to the Mitigation Bank, GDE Investments hereby elects to remove the following land from the area.

1.103 acres located in the northeast corner of section 16, T3S, R2W of Evangeline Parish, LA.

Attached is a copy of the July 8, 2013 jurisdictional determination with the subject 1.103 acres marked. In addition attached is a copy of the cash sale and land survey verifying this 1.103 acre tract was retained by the land owner that I purchased part of the former farm land comprising the GDE bank in 2005. In summary I have never owned this 1.103 acre tract, therefore it could not be part of the GDE bank.

Once this request and the request to remove +/-21.5 acres on June 23, 2015 are resolved the GDE bank Conservation Servitude will be modified.

Sincerely,

Greg Elliott
