Hello Dr. Petersen,

Thank you again for all your work with the PPRTV for sulfolane. Alaska Department of Environmental Conservation would like to set-up another meeting with ATSDR, NTP and yourself to continue the discussions we had previously, now that the PPRTV has been released. Would you be available the week of April 23rd for a meeting?

Thank you,
Stephanie

Hi:

I've been told that the Sulfolane document has been finalized today. It should appear in our PPRTV listing on-line shortly.

Bye for now

DAn

HI:

That's where it should be. I just sent a message to my managers to see if they could shake it loose. I know whose desk it is sitting on, but I don't know what I can do. She is overtasked, but that's not an excuse, these things really need to get out for people to use.

Sorry about the endless delays. I'll see if there's anything that can be done.

Dan

It isn't on the website. Would it be anywhere else? Thanks for checking.

Stephanie

Oh dear! Is it still stuck? We finished our review and sent it to Washington for final approval on Nov 21st. They acted like it was urgent so we worked on it over the weekend (nov 20th) to get it ready. I thought it would be out by Thanksgiving.

I'll send a note to my managers to see if anyone knows what happened.

Bye for now

Dan

Hello Dr. Petersen,

Just thought I'd check on the status of the PPRTV. Have you heard anything new on schedule? The RP is in the process of conducting a risk assessment at the site and we are hoping to be able to use the PPRTV RfD in that report, if available.

Thank you and have a good weekend,
Stephanie

It should be ready very soon...we sent it up to Washington for clearance the last week of September.

I'll send you a copy as soon as I get word that' it's cleared.

Bye for now

Subject: Status of Sulfolane PPRTV

Hello Dr. Petersen,

I am just checking on the status of the sulfolane PPRTV. Has the peer review been complete of the HLS study? Is the final PPRTV document available?

Thank you. As you can imagine, we are very anxious to see the final report.

Thank you,
Stephanie
