Waste Reduction Page

As required in 40 CFR 262.56(a)(5) and 40 CFR 262.87(a)(5), Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41 [biennial report], when submitting in even numbered years:

(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated:	New caustic etch formula put in line which does not form scale. This allowed us to reduce the amount of waste shipped significantly
(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:	Caustic was more due to new tank size. Chromium is new to our line. The chromic acid was added due to our work as a Boeing Aerospace Processor as the aerospace industry requires chromic acid anodize. The annual quantity shipped will be in this range usually.
