2011-07-08 Station 18A-3 Continuous Monitor Evaluation Summary Report.pdf

---

Hi Zach, how are things going? When you have time, this might be helpful to get your assessment of this attached. It is a write up FMC did regarding the monitoring equipment they are using and their assessment of how to consider some readings.

Maybe we can chat about this and you can help me make sure I understand it and tell me if you would agree with what they conclude. Let me know when you would have time.
