Date: Tuesday, April 13, 2021 3:09:22 PM

Good Afternoon Chelsea,
Thank you for bringing that to the TOP of our emails lol.
No changes for Region 6 (OK, NM, TX, AR, LA).
Thank you,
WFC

Subject: Annual NPDES CAFO Implementation Status Report Update
Hello!
It is time for our annual update to the NPDES CAFO program implementation status report. Here is a link to the page with last year's report: https://www.epa.gov/sites/production/files/2020-08/documents/cafo_status_report_2019.pdf
Please review the information for your Region's states in the attached document, or on the included link and send me any updates **by Monday, April 12, 2021.** If no updates need to be made, please let me know that as well.
We are looking to update the number of Total CAFOs per state, and the number of CAFOs with NPDES permits. If you wouldn't mind when you're reaching out to your states, if they could let us know if any of the permits are being administratively continued, that would be appreciated. I will most likely reach out again in the coming months for some additional CAFO data. Please feel free to call or email if you have any questions.
Thank you!
