Attachment 3
ID03180056 – EITS II
Organizational Conflict of Interest (OCI) Statement

Quoters participating in this solicitation are directed to review the OCI information in FAR Subpart 9.5 as it pertains to your participation in this acquisition and performance on other GSA requirements. In order to prevent conflicting roles that might create an unfair competitive advantage or impair a Quoter's objectivity in performing under this Call Order, Quoters shall address actual or potential OCI concerns by complying with the requirements outlined below.

The Quoter (inclusive of any subcontractors, consultants, or teaming partners) shall disclose information concerning any actual or potential conflict relating to the work under this call order and complete and sign an Organizational Conflict of Interest (OCI) Statement consistent with the format provided below. If such certification indicates that a real or apparent OCI may exist the Quoter shall include an appropriate OCI Avoidance or Mitigation Plan with the written submission addressing any actual or apparent OCI. All actual or potential OCI situations shall be handled in accordance with FAR Subpart 9.5.

Any response to the OCI will not be counted in the page limitations of the technical quote; nor will it be part of the overall technical evaluation.

The Quoter hereby makes the following certification regarding its OCI status, to the best of its knowledge:

_____**(1) No real or perceived OCI, as defined in FAR 2.1 and discussed in FAR 9.5, will result from an award of this call order.**

_____**(2) A real or apparent OCI may exist as a result of an award; therefore an appropriate OCI Avoidance or Mitigation Plan is attached.**

_____**(Signature)** _____ **(Date)**

_____**(Printed Name)**

_____ **(Title)**

The Contracting Officer (and when applicable the appropriate program office, acquisition manager, and legal counsel) will review the OCI Avoidance or Mitigation Plan in accordance with the requirements of FAR Subpart 9.5 to determine whether award would be consistent with FAR requirements. If it is unilaterally determined by the Contracting Officer that no OCI would arise or that the OCI Avoidance or Mitigation Plan adequately protects the interests of the government in the event of award, the Quoter will be determined to be eligible for award.
