>
> **ISSUE BACKGROUND:** EPA made a final BART determination for Navajo Generating Station (NGS) on August 8, 2014, requiring the Navajo Generating Station (NGS) to reduce nitrogen oxide (NOx) emissions in order to reduce visibility impacts of the facility at 11 national parks and wilderness areas. EPA finalized requirements that are consistent with an agreement developed by a diverse group of stakeholders known as the Technical Working Group on NGS (TWG). This final action establishes a cap in NOx emissions from NGS over 2009 – 2044 and requires that the facility either shut down a unit, or curtail generation by a similar amount, by 2019, and install additional pollution controls (SCR) by 2030 on the other two units. This final action, when fully implemented, requires over an 80% reduction in NOx emissions from NGS. Governor Brewer supports EPA's action.
>
> **UPCOMING DEADLINES:** None, although litigation from NPCA is likely.

SUMMARY MESSAGE TO CONVEY: EPA understands the importance of NGS to the State of Arizona and Arizona tribes. EPA determined BART, but also created a Better than BART framework that allowed stakeholders to develop more flexible options for meeting the BART threshhold.

REGIONAL CONTACT: Colleen McKaughan, 520-498-0118

STATE: Arizona

BRIEF STATEMENT OF THE ISSUE: Region 9 finalized the second Regional Haze FIP for Arizona on September 3, 2014. The position of the Governor and the State of Arizona is that the State SIP was adequate, that a FIP was unnecessary, and they should have been given more time to fix any deficiencies.

ISSUE BACKGROUND: [redacted]

Redactions: Not responsive

UPCOMING DEADLINES: None. Met all consent decree deadlines.

SUMMARY MESSAGE TO CONVEY: [redacted]

REGIONAL CONTACT: Colleen McKaughan, 520-498-0118

STATE: Arizona

BRIEF STATEMENT OF THE ISSUE: Region 9 finalized full approval of the Phoenix 5% PM-10 Plan on June 10, 2014. ADEQ and industry stakeholders were supportive, but a local environmental group has filed a petition for review.

ISSUE BACKGROUND: [redacted]

[redacted]

UPCOMING DEADLINES: Brief due from litigants on October 17, 2014. EPA's response brief due November 17, 2014.

Sorry folks – I just got this from Debbie. W**e need to send it in by 1PM on Monday so if you could send me something, anything, Monday morning, that would be great. I will run them quickly by Debbie and send it off.**

Please fill in the template below if you can think of a topic someone might bring up to Janet at AAPCA, ECOS or NACAA. We recently did some updates and they are pasted below, highlighted in yellow. You can recycle those if you think they are still relevant. Thank you and sorry again.

Gov. Janice Brewer – Arizona

Preliminary comments from Arizona's initial review of 111(D) proposal: [redacted]

Navajo Generating Station: EPA made a final BART determination on August 8, 2014, requiring the Navajo Generating Station (NGS) to reduce nitrogen oxide (NOx) emissions in order to reduce visibility impacts of the facility at 11 national parks and wilderness areas. EPA finalized requirements that are consistent with an agreement developed by a diverse group of stakeholders known as the Technical Working Group on NGS (TWG). This final action establishes a cap in NOx emissions from NGS over 2009 – 2044 and requires that the facility either shut down a unit, or curtail generation by a similar amount, by 2019, and install additional pollution controls (SCR) by 2030 on the other two units. This final action, when fully implemented, requires over an 80% reduction in NOx emissions from NGS.

Subject: URGENT: Materials needed for Janet McCabe for upcoming AAPCA, ECOS and NACAA Meetings

Folks....

Sorry to all in advance for the short turn around!

Janet will be making the rounds in the next 6 weeks with all 3 of the following groups: AAPCA 9/11, ECOS 9/15, NACAA 10/20

With luck, whatever you put together will work for all three groups.
