Re: **The Procter & Gamble Manufacturing Company**
EPA GENERATOR ID # PAD053283677

Dear Sir or Madam:

This is to advise you that on February 14, 1997, The Procter & Gamble Manufacturing Company sold its facility located at 330 South Warminster Road, Montgomery County, Hatboro, Pennsylvania to a Pennsylvania limited partnership named 330 South Warminster Associates, L.P. The Procter & Gamble Manufacturing Company continued to lease a portion of this property until April 30, 1997. The Procter & Gamble Manufacturing Company has now totally vacated this site and has no further connection with it.

Please mark your records to reflect that The Procter & Gamble Manufacturing Company will no longer be using the EPA generator ID number listed above for any activity at this site and the number should be canceled.

Should you need to contact the new owner, a contact name is listed below.

Very truly yours,

Ann K. Bailey

NOTICE OF VIOLATION

Dear Mr. Elliott:

This letter is to confirm the findings of the Department's referenced review of your hazardous waste manifest activities. Requirements for hazardous waste facilities are contained in Chapters 260 through 270 of the Rules and Regulations of the Department. Violations of applicable sections of these regulations found during our manifest review are as follows:

262.20(g)(5) The generator shall provide the following information on each manifest he prepares before the offsite transportation of the manifested waste occurs: each transporter company name, EPA identification number, Pennsylvania Hazardous waste transporter license number and telephone number.

Noted on manifest NJA0745777 information is lacking concerning the transporter company name, EPA identification number, Pennsylvania Hazardous waste transporter license number and telephone number. This information is required by regulation prior to the transportation of any hazardous waste.

You are hereby notified of both the existence of these violations as well as the need to provide for their prompt correction. Toward this end, you are requested to submit to the Department within fourteen (14) days a proposed program and schedule for abatement of these violations. If your proposed abatement program indicates certain correction cannot be completed within these time periods, you are requested to supply justification for any extensions.

This letter does not waive, either expressly or by implication, the power or authority of the Commonwealth of Pennsylvania to prosecute for any and all violations of law arising prior to or after the issuance of this letter or the conditions upon which the letter is based. This letter shall not be construed

so as to waive or impair any rights of the Department of Environmental Resources, heretofore or hereafter existing.

This letter shall also not be construed as a final action of the Department of Environmental Resources.

If you have any questions concerning this matter, please feel free to contact me at the Bureau of Waste Management, 215 270-1948.

Attention: Lois Powell

As requested per our telephone conversation on June 29, 1990, I am forwarding a list, along with copies, of all the hazardous waste manifest that contain the wrong generator US EPA ID No. (See attachments).

As you may recall from our conversation, Richardson-Vicks Inc.'s US EPA ID No. is PAD 053283677. The copies of the manifest I have enclosed contain the US EPA ID No. of PAD 064375470 which you have determined belongs to Delaware Container Co.

As per your direction, I will send a copy of this letter with all attachments, to Rollins Environmental Services so they may take the necessary action to straighten out their paper work.

I apologize for the mistake and hope that the creation of the position I now hold for Richardson-Vicks, Inc. will prevent these types of mistakes from happening in the future.

Thank you for your time and consideration in this matter, please feel free to contact me if I can be of any further assistance to you.

Sincerely,

Curtis G. Elliott

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimize the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
