Proof of Publication of
NOTICE OF PUBLIC HEARING

County of El Dorado

I am a citizen of the United States and a resident of the County aforesaid; I'm over the age of eighteen years, and not a party to or interested in the above-entitled matter. I am principal clerk of the printer at the Mountain Democrat, 2889 Ray Lawyer Drive, a newspaper of general circulation, printed and published Monday, Wednesday, and Friday, in the City of Placerville, County of El Dorado, and which newspaper has been adjudged a newspaper of general circulation by the Superior Court to the County of El Dorado, State of California, under the date of March 7, 1952, Case Number 7258; that the notice, of which the annexed is a printed copy (set in type no smaller than non-pareil), has been published in each regular and entire issue of said newspaper and not in any supplement thereof on the following dates, to-wit:

5/17
All in the year 2019

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

Dated at Placerville, California, this **17th day** of **MAY 2019**

NOTICE OF PUBLIC HEARING

El Dorado County
Air Quality Management District
Proposed revised Rule 523-1 Federal
Non-Attainment New Source Review

NOTICE IS HEREBY GIVEN that the El Dorado County Air Quality Management District (AQMD) Board of Directors has scheduled a public hearing on Tuesday, June 25, 2019 at the El Dorado County Board of Supervisor's Hearing Room, 330 Fair Lane, Placerville, California, at 8 AM or thereafter. The Board of Directors will consider adopting revised Rule 523-1 Federal Non-Attainment New Source Review (Rule) in order to comply with the Federal Clean Air Act (CAA).

Western El Dorado County (approximately Pollock Pines westward to the County line) is in nonattainment of the 2006 federal 24-hr PM2.5 (fine particulate matter ≤ 2.5 microns) national ambient air quality standard (NAAQS). As such, the CAA requires AQMD to implement measures to control emissions of PM2.5 from "major sources". A "major source" is defined as any stationary source of air pollutants which emits, or has the potential to emit, more than 25 tons per year of Volatile Organic Compounds/ Reactive Organic Compounds (VOC/ ROC) or Oxides of Nitrogen (NOx) in areas classified as "severe" or 70 tpy or more of PM10 or PM2.5. Currently, there are no major sources in El Dorado County nor are any foreseen in the near future. Adoption of revised Rule 523-1 satisfies the requirements of the CAA.

NOTICE IS FURTHER GIVEN that if adopted, revised Rule 523-1 will be submitted through the California Air Resources Board to the United States Environmental Protection Agency as a revision to the State Implementation Plan (SIP) and replace the 2016 version of Rule 523-1.

NOTICE IS FURTHER GIVEN that all interested persons may examine the Rule and associated documents at the office of the Air Quality Management District, 345 Fair Lane, T-1, Placerville, CA 95667 from 8:00 AM to 5:00 PM Monday through Friday by advance appointment. The Rule is also available for review at the following web address http://www.edcgov.us/AirQualityManagement. You may also request a copy at the district office listed below. Please provide any comments on the Rule in writing at 345 Fair Lane, T-1, Placerville, CA 95667 or via aqmd@edcgov.us. The Rule will be considered for adoption by the AQMD Board of Directors during the public hearing on June 25, 2019. Please contact Adam Baughman at (530) 621 7501 if you have any questions or to make an appointment.

Todd Lenkin
Clerk of the Hearing Board
