SIGECO SAM Compliance Concern Let 10-18-2022.pdf

Good afternoon Ethan. Thank you for visiting with me about scheduling an update call to discuss the attached reagent injection rate data request letter. I just left you a voice mail and I have to apologize in that the plant operations people that need to be on the call are out next week. Can we please move the discussion back one week to Friday November 18th? Again, I apologize for my oversight.
Thank you Ethan.
Scott
