As required in 40 CFR 262.56(a)(5) and 40 CFR 262.87(a)(5), Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41 [biennial report], when submitting in even numbered years:

(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated:	The higher cadmium content of Exide's "Absolyte" lead acide batteries would present a problem in our final lead product. Therefore, we separate these batteries and then ship to a lead recycler that can handle the higher cadmium content.

(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:	The quantity varies from year to year and we have no control over this.
