SUBJECT: MVN 2012-1434 CU

Alta Mesa Service, L.P.
15021 Katy Freeway, Suite 400
Houston, Texas 77094

Gentlemen:

Receipt is acknowledged of your application requesting authority to excavate and place fill to construct a drill site, ring levee and appurtenant structures to serve the Gueymard A. No. 1 Well, approximately 4.82 miles southeasterly from Iberville, Louisiana, in Iberville Parish.

The proposed work is permitted under authority of SW (General Permit) NOD-13. This approval to perform work is valid for 5 years from the date of this letter. This authorization does not eliminate the need to obtain a Louisiana Coastal Use Permit or any other Federal, state, or local approval that may be required by law.

The following special conditions have been made a part of this authorization:

1. Issuance of this permit confirms that the U.S. Army Corps of Engineers, New Orleans District, Regulatory Branch (CEMVN) has been provided with written notification from Wetland Mitigation Strategies, L.L.C. that the permittee has contracted for 2.1 acres of bottomland hardwood at Gum Swamp Mitigation Bank. Wetland Mitigation Strategies, L.L.C. has assumed responsibility for completing the mitigation in accordance with the Gum Swamp Mitigation Banking Instrument and has recorded the allocation of the mitigation required by this permit in the Regulatory In-Lieu and Bank Information Tracking System (RIBITS).

2. The Chitimacha Tribe of Louisiana has stated that the project area is part of the aboriginal Chitimacha homelands. If during the course of work at the site, prehistoric and/or historic aboriginal cultural materials are discovered, the permittee will contact the Chitimacha Tribe of Louisiana at P.O. Box 661, Charenton, LA 70523, and CEMVN, Regulatory Branch. CEMVN will initiate the required Federal, State, and Tribal coordination to determine the significance of the cultural materials and the need, if applicable, for additional cultural resource investigations.

Tarrell/1588

This opinion has been made on the basis of information provided by your letter. If it is later established that you furnished erroneous data, you may be directed to alter to modify your plans, to remove structures you have installed, and/or restore the work area to preproject conditions at your own expense. If it is established that you knowingly furnished erroneous data, you could also be subject to legal action.

The drawings submitted with your letter are enclosed and made a part of the record.

Mayer

Special Conditions Required ***(include rationale for each required condition/explanation for requiring no special conditions)***: ☒ yes ☐ no Compensatory mitigation and Chitimacha Indian conditions

Compensatory Mitigation Determination: The applicant has avoided and minimized impacts to the maximum extent practicable. To compensate for unavoidable impacts, the applicant has contracted with Wetlands Mitigation Strategies, L.L.C. to purchase 2.1 acres of bottomland hardwood at Gum Swamp Mitigation Bank.

(1) Is compensatory mitigation required for unavoidable impacts to jurisdictional aquatic resources to reduce the individual and cumulative adverse environmental effects to a minimal level?

☒ yes ☐ no *[If "no," do not complete the rest of this section and include an explanation of why not here*

Is the impact in the service area of an approved mitigation bank? ☒ yes ☐ no

i. Does the mitigation bank have appropriate number and resource type of credits available? ☐ yes ☐ no

(2) Is the impact in the service area of an approved in-lieu fee program? ☐ yes ☒no

i. Does the in-lieu fee program have appropriate number and resource type of credits available? ☐ yes ☐ no

(3) Check the selected compensatory mitigation option(s):

☒ mitigation bank credits
☐ in-lieu fee program credits
☐ permittee-responsible mitigation under a watershed approach
☐ permittee-responsible mitigation, on-site and in-kind
☐ permittee-responsible mitigation, off-site and out-of-kind

(4) If a selected compensatory mitigation option deviates from the order of the options presented in §332.3(b)(2)-(6), explain why the selected compensatory mitigation option is environmentally preferable. Address the criteria provided in §332.3(a)(1) (i.e., the likelihood for ecological success and sustainability, the location of the compensation site relative to the impact site and their significance within the watershed, and the costs of the compensatory mitigation project):

Determination *(Reference General Condition 27(e)):*

The proposed activity, with proposed mitigation (if applicable) would result in no more than minimal individual and cumulative adverse environmental effects and would not be contrary to the public interest. This project complies with all terms and conditions of NDO-13, including any applicable regional conditions.

APPLICATION FOR DEPARTMENT OF THE ARMY PERMIT *(33 CFR 325)*	OMB APPROVAL NO. 0710-0003 Expires December 31, 2004

The public reporting burden for this collection of information is estimated to average 10 hours per response, although the majority of applications should require 5 hours or less. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters Service Directorate of Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302; and to the Office of Management and Budget, Paperwork Reduction Project (0710-0003), Washington, DC 20503. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please DO NOT RETURN your form to either of those addresses. Completed applications must be submitted to the District Engineer having jurisdiction over the location of the proposed activity.

PRIVACY ACT STATEMENT

Authorities: Rivers and Harbors Act, Section 10, 33 USC 403; Clean Water Act, Section 404, 33 USC 1344; Marine Protection, Research, and Sanctuaries Act, Section 103, 33 USC 1413. Principal Purpose: Information provided on this form will be used in evaluating the application for a permit. Routine Uses: This information may be shared with the Department of Justice and other federal, state, and local government agencies. Submission of requested information is voluntary, however, if information is not provided, the permit application cannot be processed nor can a permit be issued.

One set of original drawings or good reproducible copies which show the location and character of the proposed activity must be attached to this application (see sample drawings and instructions) and be submitted to the District Engineer having jurisdiction over the location of the proposed activity. An application that is not completed in full will be returned.

Re: Alta Mesa Services, LP
MVN-2012-01434-CU, 2.1 acres mitigation
Gum Swamp Mitigation Bank

Dear Ms. Terrel:

Weyerhaeuser NR Company, Gum Swamp Mitigation Bank, has made arrangements for Alta Mesa Services, LP to purchase 2.1 acres of bottomland hardwoods mitigation credits for unavoidable impacts associated with work authorized by the Department of the Army permit number MVN-2012-01434-CU. The Gum Swamp Mitigation Bank assumes the responsibility for the permittee's compensatory mitigation requirements (i.e., to implement, assure performance, and provide long-term management of the compensatory mitigation project) in accordance with provisions of the Mitigation Banking Instrument governing this bank.

With kindest personal regards, I remain

Sincerely,
WETLANDS MITIGATION STRATEGIES, LLC

SUBJECT: MVN 2012-1434 CU

Alta Mesa Service, L.P.
15021 Katy Freeway, Suite 400
Houston, Texas 77094

Gentlemen:

This is in regard to the above subject Department of the Army permit application to excavate and place fill to construct a drill site, ring levee and appurtenant structures to serve the Gueymard A. No. 1 Well, approximately 4.82 miles southeasterly from Iberville, Louisiana, in Iberville Parish.

In order to satisfy the requirements of our regulations, and comply with our 1990 Memorandum of Agreement with the US Environmental Protection Agency (EPA), it has been determined that compensatory mitigation will be required for unavoidable impacts to jurisdictional wetlands.

Enclosed is a list of approved mitigation banks, sponsor contact information, and required credits appropriate for your project. Your compensatory mitigation requirements may be met by obtaining the appropriate credits from the sponsor/sponsors listed on the enclosure and having the sponsor record your credit procurement in the Regulatory In-Lieu Fee and Bank Information Tracking System (RIBITS). It is important that you contact the bank sponsor/sponsors listed to ensure the availability of the prescribed acreage and resource type.

Please advise your project manager, within 15 days of the date of this letter, as to the mitigation bank you have entered into an agreement with. The final permit will be provided once the above requirements are met. If you have any questions, please contact Doris Terrell at (504) 862-1588.

To: Terrell, Doris MVN
Subject: RE: Alta Mesa - Gueymard #1 (UNCLASSIFIED)
Attachments: COE App Pack_Page_3-edits.jpg

Doris,

Please see the attached requested application page. I have completed steps 24 & 25.

I have verified with Alta Mesa Services that the landowner for the subject well is not Spanish Lake Restoration but it is:

St. Gabriel Land Company, LLC
2104 Phillips Road
Baton Rouge, LA 70817

I put Spanish Lake Restoration on the application as an adjacent landowner under step 24. Alta Mesa Services does not have any other authorizations for the proposed location (step 25).

Please let me know if you have all of the information you need to move forward with issuing the permit. We need to get the well drilled ASAP, so whatever you can do to move the project forward will be greatly appreciated...

Thanks

To: 'Terrell, Doris MVN'
Subject: RE: Alta Mesa - Gueymard #1 (UNCLASSIFIED)

Doris,

I not aware of any conditions in the NOD-13 that rule out projects located on Mitigation Banks. In the past couple years I have gotten/applied for at least two different drill sites located on Spanish Lake Restoration land, and they were both processed as NOD-13's.

1. Natalbany B#8 (MVN 2011-02865-CL) - analyst (Amy Oestringer)

2. Natalbany #1 (MVN 2010-02477-CK) - analyst (Brandon Clark)

Both the projects were processed as NOD-13 Permits with the condition that a written landowner statement be provided. With all that being said, can you process our application as an NOD-13 if we provide you with a signed landowner statement from Spanish Lake Restoration?

I have attached the requested Vicinity Map. Please let me know if you need anything further regarding this.

I will get steps 24 and 25 completed on the application shortly and email the revised application page to you.

Thanks

Subject: RE: Alta Mesa - Gueymard #1 (UNCLASSIFIED)

Classification: UNCLASSIFIED
Caveats: NONE

Matt

This is in reference to your recent permit request to excavate and place fill to construct a ring levee, drill site and appurtenant structures to serve the Gueymard A No. 1 Well, Section 18, Township 9 South - Range 2 East, approximately 4.82 miles southeasterly from Iberville, Louisiana, in Iberville Parish.

The project will be processed as an Individual Permit since it is located on the site of the Spanish Lake Mitigation Bank. Additional information is for our public interest review and impact assessment purposes. The following information is required:

1. Application for Department of the Army (ENG Form 4345) - Please complete Blocks 24 and 25.

2. Vicinity map - Please provide a vicinity map that clearly identifies the location of the proposed project relative to its location on the approved wetland delineation map that was included with your application.

Please return the requested information to me. If you have any questions, please call me at (504) 862-1588.
