Hi Tala,

They would like to receive today. If we can't make that happen, I'll send a note to Amy letting her know it's on its way soon (tomorrow AM?).

I'll be monitoring email periodically.

Best,
Catherine

I sent around the comment on the other chemicals that were found (with Tala on the email chain) to see whether she and Catherine have thoughts on that comment. *I don't necessarily need to be on the email chain for some of the issues (unless you need me to clarify things) if Tala thinks there are too many people – in the management meeting, she mentioned there were a lot of people working on this.*

Note that Tracy and I talked and she wanted me to delete a comment she had on Table 4 so this version doesn't have her comment on that table.

Internal Draft Deliberative

Chris, Amy, and Catherine,

As we discussed yesterday, please find attached the NC DHHS draft document with some initial comments incorporated. Please free to edit any of the comments as these are a first draft. Some of the comments were issues discussed yesterday but based on Catherine's suggestion, I included them as a reminder. Catherine – one thought I had was whether we should limit the comments to only those specific questions they asked about. If so, we can edit the document accordingly. Either way, I think it's important to note that these are the comments we have within the requested time frame and we didn't comment on everything in the document.

After we compile comments from RAD, it would be helpful to merge with comments from OW since I expect they would provide discussion on the questions about RSC, etc.

Tracy

Subject: GenX Risk Assessment Knowledge Gaps

Hello everyone!

NC DHHS has been discussing GenX with both EPA and ATSDR and we really appreciate the help you've been giving us. We'll be holding a conference call tomorrow to talk about the progress we've made on our GenX risk assessment, and talk about knowledge gaps. We'll be asking for rapid feedback within the next week to help inform our risk communications with the public.

I've attached a document for you to review with requests for feedback bolded in purple.

Thanks so much and talk to you all tomorrow!
