Re: **Final label as per EPA notification approval letter of 11/10/15**
Product: Counter Assault Bear Deterrent
EPA Reg. No.: 55541-2
Company: Bushwacker Backpack and Supply Company, DBA Counter Assault

Dear Mr. Bryceland:

On behalf of Bushwacker Backpack and Supply Company, DBA Counter Assault (Counter Assault), I am submitting the final label for Counter Assault Bear Deterrent, for EPA Reg. No. 55541-2 in response to EPA's approval of the alternate brand name notification. There were no modifications requested in the EPA approval letter dated 11/10/15.

The following documents are enclosed in support of this notification:

- EPA form 8570-1
- 1 copy of Label

If you have questions, please contact me at 301-680-7971 or cgriffin@delta-ac.com.

Sincerely,

Cristina Griffin
Agent for Bushwacker Backpack & Supply Company DBA Counter Assault

FINAL PRINTED LABEL CHECKLIST **CHECK. .T VERSION: JUNE 17, 2016**
OPPIN Action Code: 400

EPA Reg. No: 55541-2

Submission Date: 9/02/15 and 11/10/2015/24/2015

RAL Name: Sandra Owusu-Assah

	Checklist Item	Yes	No	N/A
1.	**Is the application form (EPA Form 8570-1) signed and complete?** ▪ If NO, STOP! Contact applicant and have them correct the application. ▪ Note: Section III is oftentimes left blank; this is addressed below.	X		
2.	**Label in conformance with current Label Review Manual?** Note: OK if some items are placeholders in brackets or XXX-XXX	X		
a.	Restricted Use Pesticide statement (if applicable)	X		
b.	Product name, brand, or trademark	X		
c.	Ingredient statement including nominal concentration of active ingredient (AI)? Microbial: strain designation and potency designation	X		
d.	Microbial: Viability			X
e.	"Keep Out of Reach of Children" (KOOROC) Statement	X		
f.	Signal Word	X		
g.	First aid statement	X		
h.	Net contents/net weight	X		
i.	EPA Reg. No. and Establishment No.	X		
j.	Company name and address	X		
k.	Precautionary statement: Hazards to Humans and Domestic Animals Microbial: Dust Mask Statement	X		
l.	Environmental hazards	X		
m.	Physical and chemical hazards (if applicable)	X		
n.	Directions for Use (pay particular attention to targeted pests and use sites)	X		
o.	Worker Protection Standard (WPS) language (if applicable)	X		
p.	Storage and Disposal • Do these instructions agree with the container types listed on Section III of 8570-1? If Section III is empty, check if the instructions agree with past master label or FPL in jacket.	X		
q.	Warranty Statement (not required, but must be evaluated if submitted)	X		
r.	Batch Code (required if non-refillable container)	X		
3.	**Does Final Printed Label only contain items found on previously approved labels?** Note: This may not always be the most recent label and, for example, use sites may be deleted so product can be marketed to a specific audience.	X		
4.	**Are marketing claims approved?** • If NO, see Team Leader to notify them. The FPL is unacceptable.	X		

5.	**Are graphics acceptable?** • Do the graphics suggest use patterns not approved by the label? Are they false or misleading? • Please see resources like the Chapter 16 of the Label Review Manual and the Repellency Graphic Guidance.	X		

If all above is cleared:

- Stamp the label with the "Complies with EPA Accepted Labeling" and then note the date of the application and the date on which you are approving the label.
- Place application package and stamped label in product jacket.
- Use Code 1300 to close out action in OPPIN.

CHEMICAL EMERGENCY NUMBER: 1-800-535-5053
EPA Registration [illegible] EPA Est. [illegible]
[illegible]

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

DANGER:
May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS:
Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE & DISPOSAL
STORAGE: STORE IN A COOL DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F nor below 32°F. Do not store in hot vehicle or in direct sunlight.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE. Non-Refillable Container. Do not reuse or refill this container.

If empty: Press valve to release all pressure then place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Bushwacker Backpack & Supply Co., Inc. or its manufacturer shall not be liable for damage, injury, loss, direct or consequential including death arising out of the use of, or inability to use this product.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

This product has a range of up to 30 feet (9 meters). The canister empties in approximately 7 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a training can and practice with it until you can perform these activities quickly and accurately.

To Arm and Apply
Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip tail. With thumb, pull safety clip straight back and off (fig 1).

Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm
Replace safety clip by pushing firmly with thumb until audible 'snap' is heard (fig 3). Check to see if safety is completely in place. No gap should be visible between actuator handle and safety clip.

MADE IN MONTANA

2

Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault.

Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray the product on objects, tents, or humans, such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or food materials which may have become contaminated with this product.

This product has a range of up to 30 feet (9 meters). The canister empties in approximately 7 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and replace the safety clip to secure the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a Counter Assault training can and practice with it until you can perform the activities quickly and accurately.

Fig. 1

TO ARM AND APPLY: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1). Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

Fig. 2

TO SECURE: Replace safety clip by pushing firmly with thumb until audible "snap" is heard (fig 3). Check to see if safety is completely in place, the gap should be visible between actuator handle and safety clip.

Fig. 3

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CHEMICAL EMERGENCY: 1-800-535-5053

NET CONTENTS: 10.2 ounces (290g)

EPA Registration #55541-2 EPA Est No: 055541-MT-001

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has *no* deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten with food or feed materials which may have become contaminated with this product.

This product has a range of up to 32 feet (10 meters). The canister empties in approximately 9 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. *Do not* test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a Counter Assault training can and practice with it until you can perform these activities quickly and accurately.

To Arm and Apply

Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1).

Fig 1

Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

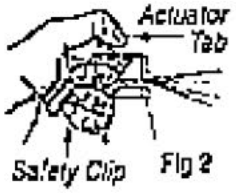

Fig 2

To Disarm

Replace safety clip by pushing firmly with thumb until audible "snap" is heard (fig 3). Check to see if safety is completely in place. No gap should be visible between actuator handle and safety clip.

EPA REG. #5[illegible]2

DEVELOPED IN CONJUNCTION WITH THE UNIVERSITY OF MONTANA

"Grizzly Tough" Bear Spray

Works on all bear species to deter bears from attacking humans

Developer of high emission "atomized" fire extinguisher-style spray used in bear deterrents.

(see reverse)

Glow in the dark safety wedge with tie string

Sprays to 32 feet; 8 seconds of spray time

MAGNUM 290
10.2 ounces (290g)

Produced by a Grizzly Bear Encounter Survivor!

(story on reverse)

MADE IN MONTANA USA

Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault.

Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or food materials which may have become contaminated with this product.

This product has a range of up to 32 feet (10 meters). The canister empties in approximately 8 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and remove the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used the product before, you should obtain a Counter Assault training can and practice with it until you can perform the activities quickly and accurately.

Fig. 1

Fig. 2

Fig. 3

TO ARM AND APPLY: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1). Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-3 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

TO DISARM: Replace safety clip by pushing firmly with thumb until audible "snap" is heard (fig 3). Check to see if safety is completely in place. No gap should be visible between actuator handle and safety clip.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

DANGER: May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you, when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS: Extremely Flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE: STORE IN A COOL DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F nor below 32°F. Do not store in hot vehicle or in direct sunlight.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE! Non-Refillable Container. Do not reuse or refill this container. If empty: Press valve to release all pressure then place in trash or offer for recycling if available. If party filled: Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Counter Assault shall not be liable for damage, injury, loss, direct or consequential including death arising out of the use of, or inability to use this product.

Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault. Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, trees, or humans such as has no deterrent effect on bears. Do not use out accessories with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not let or allow to be taken any food or food materials which may have become contaminated with this product.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you lose the this container, make sure the strap is at your belt and depress actuator tab for no more than half a second. Do not test-fire or spray indoors by bears. If well-fired, clean nozzle and rinse with soap and water to remove residue from gas. If you have not used the product before, you should purchase a Counter Assault training can and practice with it until you can perform the activities quickly and accurately.

TO ARM AND APPLY: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip tab. With thumb, pull safety clip straight back and off (Fig 1). Depress actuator tab for burst of spray (Fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

TO DISARM: Replace safety clip by pushing firmly with thumb until audible "snap" is heard (Fig 3). Check to see if safety is completely in place. No gap should be visible between actuator handle and safety clip.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

DANGER: May cause irreversible eye damage if sprayed in the eyes. (Eye irritant). Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS: Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL

STORAGE: STORE IN A COOL, DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F or below 32°F. Do not store at that exposure to direct sunlight. **DISPOSAL:** DO NOT PUNCTURE OR INCINERATE non-Refillable Container. Do not reuse or refill the container. If empty: Press valve to release all pressure then place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Counter Assault shall not be liable for damage, injury, loss, direct or consequential, including death arising out of the use of, or inability to use this product.
